**REPORT OF INDEPENDENT REGISTERED  
PUBLIC ACCOUNTING FIRM**

To the Employee Benefits Administrative Committee, Plan Administrator, and Plan Participants of the Tredegar Corporation Retirement Savings Plan

**Opinion on the Financial Statements**

We have audited the accompanying statements of net assets available for benefits of the Tredegar Corporation Retirement Savings Plan (the Plan) as of December 31, 2019 and 2018, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements (collectively, the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to fraud or error. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

**Report on Supplemental Information**

The supplemental information in the accompanying schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2019, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule is fairly stated in all material respects in relation to the financial statements as a whole.

**NOTE 1. DESCRIPTION OF PLAN**

***General***

Tredegear Corporation and subsidiaries (collectively “Tredegear” or “the Company” or “Plan Sponsor”), which is primarily engaged in the manufacturing of aluminum extrusions, polyethylene films and polyester films, is a Virginia corporation. The Tredegear Corporation Retirement Savings Plan (“Plan”) was adopted by the Board of Directors of Tredegear (“the Board”) on June 14, 1989 and the Plan was effective as of July 1, 1989.

The Plan is subject to Titles I, II and III and is exempt from Title IV of the Employee Retirement Income Security Act of 1974 (ERISA). Title IV of ERISA provides for federally sponsored insurance for plans that terminate with unfunded benefits. No such insurance is provided to participants in this Plan; however, because the benefits that participants are entitled to receive are always equal to the value of their account balances, the Plan is always fully funded. The value of a participant’s account may change from time to time. Each participant assumes the risk of fluctuations in the value of his or her account.

The Plan is a defined contribution plan. Information regarding plan benefits and vesting is provided in the Plan and related documents, which are available at Tredegear’s main office at 1100 Boulders Parkway, Richmond, Virginia. Effective January 1, 2019, the Plan was amended to make the Plan a safe harbor 401(k) plan and eliminate after-tax contributions.

The Plan is administered by the Company. Plan assets were held by Great-West Trust Company, LLC through April 30, 2018. Effective May 1, 2018, Plan assets were transferred to Fidelity Management Trust Company (“Fidelity”), the new trustee of the Plan.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis of accounting.

***Use of Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued*****Investment Valuation and Income Recognition***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

***Payment of Benefits***

Benefits are recorded when paid.

***Administrative Expenses***

The Plan is responsible for all trustee and investment management fees. Participants are charged a pro-rated per-participant fee. For the periods January 1, 2018 to April 30, 2018 and May 1, 2018 to December 31, 2019, the per participant fee was \$77.00 (0.12%) and \$82.00 (0.12%), respectively. To cover additional expenses, in 2018, participants were also charged 0.04% of annual plan-related expenses. There were no additional charges in 2019. Tredegar also pays for other administrative expenses up to an annual limit of \$75,000. Any expenses in excess of this limit are paid by the Plan.

### NOTE 3. CONTRIBUTIONS AND INVESTMENT OPTIONS

A participant may contribute a percentage of his or her eligible base pay (as defined) ranging from a minimum of 0.5% (one-half of one percent) to 75%. Effective May 1, 2018 and January 1, 2019, the minimum pre-tax elections is 0.5% and 1%, respectively. The 2019 and 2018 Tredegar matching contribution was \$1.00 for every \$1.00 a participant contributed up to 5% each payroll period.

With the exception of participants covered under certain collective bargaining agreements, employees are automatically enrolled in the Plan with a pre-tax contribution equal to 3% of base pay invested in the age appropriate target fund and automatically increased in the succeeding plan year until the contribution level is equal to 5% of base pay. Employees have the choice to waive automatic enrollment as well as automatic increase and contribute more or less in their choice of investment funds.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-three (23) mutual funds, one (1) common collective trust, one (1) money market fund and a self-directed brokerage window as investment options to participants. Investments also include the Tredegar Stock Fund, in which new investments are prohibited.

All employer matching contributions are allocated according to the participant's investment direction. If no selection is made, 100% is allocated to the applicable target date fund; the Plan's default funds, based on the participant's age and an estimated retirement age of 65. The Plan Sponsor may also make an additional discretionary match, to be determined by the Board. There were no such discretionary contributions for the years ended December 31, 2019 and 2018, respectively.

### NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

**Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

*Money market fund:* Valued at market price, which is equivalent to \$1 per unit.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (“SEC”). These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2019 and 2018

**NOTE 4. FAIR VALUE MEASUREMENTS, Continued**

*Common stock:* Valued at closing price reported on the active market on which the individual securities are traded.

*Self-directed brokerage account:* Valued at the closing price reported on the active market on which the individual securities are traded.

*Common/collective trust:* A fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize financial assets measured at fair value on a recurring basis, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value, as of December 31, 2019 and 2018, respectively:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2019

---

**NOTE 5. FORFEITURES**

Employees who leave Tredegar before becoming fully vested in Tredegar contributions forfeit the value of the nonvested portion of the Tredegar contribution account. At December 31, 2019, forfeited nonvested accounts available to reduce future administrative expenses totaled \$6,115. At December 31, 2018, forfeited nonvested accounts available to reduce future employer contributions totaled \$7,453. Employee forfeitures were \$0 during 2019 and \$548 during 2018. In 2019 and 2018, employer contributions were reduced by \$0 and \$28,914, respectively, from forfeited nonvested accounts, and \$27,259 and \$53,133, respectively, were offset to administrative expenses.

**NOTE 6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS**

Certain fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Certain Plan investments are shares of stock in Tredegar. Tredegar is the Plan Sponsor as defined by the Plan and, therefore, these transactions qualify as related party transactions.

The Plan also issues loans to participants, which are secured by the vested balances in the participant's accounts.

**NOTE 7. INCOME TAX STATUS**

The Plan received its latest determination letter on February 28, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any periods.

**TREDEGAR CORPORATION RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2019 and 2018

**NOTE 8. RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**NOTE 10. PLAN TERMINATION**

Although it has not expressed any intent to do so, Tredegar has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

**NOTE 11. SUBSEQUENT EVENTS**

The Plan has evaluated all events through June 19, 2020, the date the financial statements were issued and has determined that the events discussed below require disclosure pursuant to the FASB ASC.

In March 2020, COVID-19 was declared a worldwide health pandemic and has had a significant impact on the national and global economy. The ultimate impact of COVID-19 on the Plan's financial statements is unknown at this time. However, the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was signed into law on March 27, 2020, which provides relief to Plan participants who have been affected by the COVID-19 pandemic as specified in the CARES Act. Management elected to implement certain provisions of the CARES Act and will execute a formal Plan amendment within the timeframe required by law. There are no other subsequent events to be reported in the accompanying financial statements.
